

PV-0 COVER / NOTES

Upon expiration of the Term the Customer may renew, purchase the System at fair market value, or request removal.

Upon expiration of the Term the Customer may renew, purchase the System at fair market value, or request removal.

Charges are calculated per kilowatt-hour delivered by the System as measured by the production meter.

The Parties agree that the System shall remain the property of the Owner for the duration of the Term.

Production estimates are projections only and are not a guarantee of actual energy output.

Notices required under this Agreement shall be delivered in writing to the addresses stated in the Order Form.

Taxes, fees and assessments attributable to the System are allocated as set forth in the schedule of charges.

Either Party may assign this Agreement to a qualified successor upon written notice to the other Party.

Force majeure events excuse performance for the duration of the event and a reasonable restoration period.

Either Party may assign this Agreement to a qualified successor upon written notice to the other Party.

The Customer acknowledges receipt of the disclosure statement and the notice of cancellation rights.

Notices required under this Agreement shall be delivered in writing to the addresses stated in the Order Form.
